II. READING COMPREHENSION 1 (8 Marks)

Read the following text and answer the questions below:

More people around the world are trying to live greener lives. In many cities, families now separate paper, glass, and plastic so these materials can be recycled. Schools also teach students how to save water and energy. Some students walk to school, use public transport, or switch off lights when they leave a room. These simple actions help protect the environment.

Greener neighborhoods are often cleaner and healthier places to live. When communities plant more trees, reduce waste, and keep streets clean, everyone benefits. People may enjoy fresher air, safer public spaces, and a stronger sense of responsibility for the future.

III. READING COMPREHENSION 2 (8 Marks)

A balanced life includes more than one good habit. First, people need a home where they feel safe and comfortable. Second, exercise helps the body stay strong, and many teenagers enjoy sports because they are fun and social. Laughter is also important because it can reduce stress and improve mood.

Food choices matter too. If people eat too much junk food, they may have health problems. However, nutritious meals give the body energy and help people study, work, and exercise well. When people combine a good home, exercise, laughter, and healthy food, they can build a stronger and happier life.

1. What does the passage say people need first?

- A) a good home B) a TV show C) a car D) a phone

2. Why do many teenagers enjoy sports?

- A) because they are expensive B) because they are fun and social C) because they reduce sleep D) because they replace study

3. What can laughter do?

- A) improve mood B) remove healthy food C) increase pollution D) build homes

4. What can happen if people eat too much junk food?

- A) they become stronger immediately B) they may have health problems C) they laugh more D) they need less sleep

5. The word "combine" is closest in meaning to:
